Insect bite healer as a miracle weapon against itchy mosquito bites

Ulm, 24 May 2024 – The winter was mild and the rainy start to the year has also encouraged mosquitoes, meaning many nature lovers will also suffer from the effects of mosquito and insect bites in summer. Itching and swelling of the skin are unpleasant side effects. The Ulm-based health specialist Beurer offers a remedy. The three BR 90, BR 60 and BR 10 Insect Bite Healers put an end to the misery and quickly relieve symptoms.

Relief from itching and swelling without any scratching

With the BR 90, BR 60 and BR 10, Beurer has three insect bite healers in its range that use heat to relieve itching and swelling and accelerate the healing process. Since this method does not require any chemicals, it is also particularly suitable for children from 3 years of age and pregnant women. The products are equipped with a fast-heating ceramic plate that delivers a precise heat pulse at the touch of a button.

Beurer BR 90, BR 60 and BR 10 Insect Bite Healers

Whether you're in the garden, by the lake or in the mountains – annoying mosquitoes or other insects are everywhere. Beurer insect bite healers provide quick relief after a mosquito bite.

The **BR 90 Insect Bite Healer** is particularly suitable for targeted relief, even at twilight or at night. This is because it is equipped with an optional small light which makes it easy to use in the dark.

Two programs are available for use:

Program 1: For initial use and persons with sensitive skin

Program 2: For regular use.

The **BR 60 Insect Bite Healer** also has two programs. With its small, practical design, it is recommended for the whole family. Beurer recommends that children under the age of 12 years have an adult use the insect bite healer for them. The **BR 10 Insect Bite Healer** is especially ideal for travelling, hiking or sports. It has a handy carabiner hook, making it easy to attach to your gym bag or backpack.

About Beurer

Beurer was founded in 1919 in Ulm and is synonymous with health and well-being. Today, the family-run company leads the way in several areas of this segment. Originally a manufacturer of heat pads and heated underblankets, the company has grown into a full-range supplier offering more than 500 products. Beurer offers various products for use at home in the categories of health, wellbeing, beauty, personal care, home, fitness and baby, including blood pressure and blood glucose monitors, clinical thermometers, pulse oximeters, nebulisers, hearing amplifiers, daylight therapy lamps, insect bite healers, a mobile ECG device and an emergency wristband, as well as products for pain therapy and women's health. The range also covers the areas of flexible heating, weight & diagnosis, air & aroma, massage & shiatsu and sleep & rest. What's more, Beurer offers various beauty products in the categories of FaceCare, BodyCare, HairCare, hair removal, manicure & pedicure, as well as a men's grooming range and electric toothbrushes in the personal care category. The company offers a range of fitness products in its Antelope

by beurer and Physioline product groups, along with numerous abdominal muscle trainers. The baby category contains special products adapted to the needs of children, babies and their parents. With its "Connect" product group, the health specialist offers a wide range of apps that can be combined with Beurer products and make everyday life easier. Around 1,700 employees worldwide and a global distribution network spanning more than 100 countries ensure the company's ever-growing success. You can find more information at www.beurer.com.
