

Press release

“VERY GOOD” test result for easy blood pressure monitoring thanks to the Beurer “Scan & Save” function

Ulm, 7 August 2024 – Health apps are becoming increasingly popular for documenting certain vital signs such as blood pressure, body weight, activity and sleep quality. The app “beurer HealthManager Pro” offers the possibility of monitoring your own health stats by collating measurement data from a range of devices. Experts from ETM TESTMAGAZIN recently evaluated the app’s newest tool – the “Scan & Save” function – in an individual online test and have rated it “VERY GOOD”. They particularly highlighted how easy it makes blood pressure recording – even when using a blood pressure monitor not equipped with smart automatic data transfer.

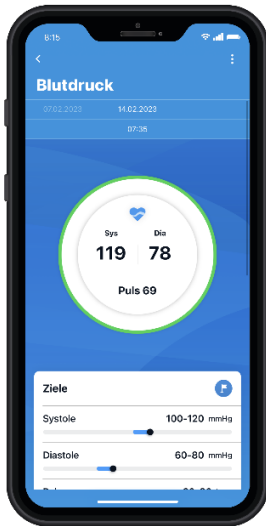

High blood pressure is the number one risk factor for cardiovascular illness. It is a diagnosis that hits many people unexpectedly, because hypertension is often gradual and rarely manifests itself through specific symptoms. But given that it can lead to stroke or heart attack if untreated, regular blood pressure monitoring is recommended. Health specialist Beurer offers a wide range of [blood pressure monitors](#). Many of them are compatible with “beurer HealthManager Pro” and can automatically transfer measured values to the app via *Bluetooth*[®].

“Scan & Save”: Digital blood pressure journal for every user

The new “Scan & Save” function in the app now offers the advantage of digitally storing measured values from all Beurer blood pressure monitors – including products that do not have *Bluetooth*[®] transfer capability. The user simply needs to select the appropriate Beurer blood pressure monitor in the app after taking a blood pressure measurement, and then use the smartphone camera to scan the device display in the indicated app window. The values are automatically detected and saved. This eliminates the need to enter values manually. What’s more, all saved data can be easily exported from the app and then sent to a treating physician.

The “Scan & Save” function was judged to be all-round impressive in terms of operation, performance and design. The experts from ETM TESTMAGAZIN praised the quick and easy method for digital blood pressure recording, which is extremely valuable for regular blood pressure monitoring. They additionally noted that the scanning process is self-explanatory and the measured values are reliably and quickly visible in the app. “Scan & Save” also scored points for its clear and user-friendly graphic design and intuitive handling.

About Beurer

Beurer was founded in 1919 in Ulm and is synonymous with health and well-being. Today, the family-run company leads the way in several areas of this segment. Originally a manufacturer of heat pads and heated underblankets, the company has grown into a full-range supplier offering more than 500 products. Beurer offers various products for use at home in the categories of health, wellbeing, beauty, personal care, home, fitness and baby, including blood pressure and blood glucose monitors, clinical thermometers, pulse oximeters, nebulisers, hearing amplifiers, daylight therapy lamps, insect bite healers, a mobile ECG device and an emergency wristband, as well as products for pain therapy and women’s health. The range also covers the areas of flexible heating, weight & diagnosis, air & aroma, massage & shiatsu and sleep & rest. What’s more, Beurer offers various beauty products in the categories of FaceCare, BodyCare, HairCare, hair removal, manicure & pedicure, as well as a men’s grooming range and electric toothbrushes in the personal care category. The company offers a range of fitness products in its Antelope by beurer and Physioline product groups, along with numerous abdominal muscle trainers. The baby category contains special products adapted to the needs of children, babies and their parents. With its “Connect” product group, the health specialist offers a wide range of apps that can be combined with Beurer products and make everyday life easier. Around 1,700 employees worldwide and a global distribution network spanning more than 100 countries ensure the company’s ever-growing success. You can find more information at www.beurer.com.
