

Press release

## “Scan & Save” can now also be used for blood glucose values

Ulm, 6 September 2024 – Ulm-based health specialist Beurer is expanding the functionality of its app “beurer HealthManager Pro” and is extending the “Scan & Save” tool to blood glucose monitors. Beurer will present the update to visitors at the International Radio Exhibition (IFA) in Berlin. It represents the Ulm-based health specialist’s solution for simple and convenient digital recording of vital blood glucose values, and offers an easy way for customers to continuously monitor and interpret blood glucose levels.

Blood glucose measurement is an essential part of modern healthcare. For people with diabetes or prediabetic conditions in particular, regular measurement and documentation of blood glucose levels is crucial. Currently anyone who has a blood glucose monitor not equipped with *Bluetooth*<sup>®</sup>, such as the [Beurer GL 49](#), must record the measured values manually and can digitise them only with some difficulty.

**The app “beurer HealthManager Pro” with “Scan & Save” means that digital management of blood glucose values is now possible even without *Bluetooth*<sup>®</sup>.**

The measured values on the blood glucose monitor are simply scanned using the smartphone camera and automatically saved in the app. The user is then able to document, monitor and analyse the results in the app. If necessary, they can be directly and straightforwardly discussed with a doctor.

### Comprehensive health management with “beurer HealthManager Pro”

With its app ["beurer HealthManager Pro"](#), Ulm-based health specialist Beurer offers comprehensive health management that brings together data such as blood glucose, blood pressure, weight, oxygen saturation, activity and temperature. This medical device app meets the requirements of the relevant European directives. This facilitates deeper insights into personal health data, as well as pure measured values.

**Benefits at a glance:**

- Medical device: Insight into detailed measured values  
As a medical device this app meets the requirements of the relevant European directives.
- Always to hand: Measurements and progress graphs can be retrieved anywhere and at any time
- Modern design and intuitive operation with helpful user navigation system
- Fully accessible – anyone can use it
- Quick and easy: Export function lets you easily share data with your doctor

**All Beurer highlights will be presented at IFA from 6 to 10 September 2024 in Hall 4.1 at Stand 210.**

**Social Media****About Beurer**

Beurer was founded in 1919 in Ulm and is synonymous with health and well-being. Today, the family-run company leads the way in several areas of this segment. Originally a manufacturer of heat pads and heated underblankets, the company has grown into a full-range supplier offering more than 500 products. Beurer offers various products for use at home in the categories of health, wellbeing, beauty, personal care, home, fitness and baby, including blood pressure and blood glucose monitors, clinical thermometers, pulse oximeters, nebulisers, hearing amplifiers, daylight therapy lamps, insect bite healers, a mobile ECG device and an emergency wristband, as well as products for pain therapy and women's health. The range also covers the areas of flexible heating, weight & diagnosis, air & aroma, massage & shiatsu and sleep & rest. What's more, Beurer offers various beauty products in the categories of FaceCare, BodyCare, HairCare, hair removal, manicure & pedicure, as well as a men's grooming range and electric toothbrushes in the personal care category. The company offers a range of fitness products in its Antelope by beurer and PhysioLine product groups, along with numerous abdominal muscle trainers. The baby category contains special products adapted to the needs of children, babies and their parents. With its "Connect" product group, the health specialist offers a wide range of apps that can be combined with Beurer products and make everyday life easier. Around 1,700 employees worldwide and a global distribution network spanning more than 100 countries ensure the company's ever-growing success.
