

Advanced documentation via app

beurer BabyCare app

The free beurer BabyCare app gives you a clear overview of your child's development on your smartphone. It can be used to record parameters such as nutrition, sleeping patterns, crying, temperature, and height. When used with the BY 90 baby scales, weight data can be automatically transferred to the app via *Bluetooth®*.

beurer CareCam app

With the digital BY 88 Smart baby monitor and the free beurer CareCam app, you can always keep an eye on your child via your smartphone, tablet, or computers, facilitated by your home Wi-Fi router.

SAFETY FEELS GOOD – AT HOME AND ON THE MOVE

Analogue, digital or with app support: with a Beurer baby monitor, you're always making a good decision. Keep your child in sight at any time of day and enjoy a feeling of safety – at home or when you're on the move.

ECO MODE: FOR LOW-EMISSION AND ENERGY-EFFICIENT TRANSMISSION

All Beurer baby monitors are equipped with an Eco mode, which enables a significant reduction in radio waves between the baby and parent units when the child is quiet, thereby protecting the baby from unnecessary radiation.

BY 88 Smart baby care monitor

With the BY 88 Smart, the Wi-Fi camera makes it easy to keep tabs from your smartphone, tablet or computer. The device is compatible with the free beurer CareCam app.

BY 110 video baby monitor

With the BY 100, you can monitor your baby live and in colour via the large LCD display. The device offers greater convenience with sleep mode, more flexibility due to its long run time, and more freedom, with a range of up to 300 m.

BY 84 analogue baby monitor

The analogue BY 84 baby monitor doesn't just provide an acoustic signal, but also displays your baby's emotions directly on the display. So you can immediately see if your child is awake, asleep, or crying.

HELLO, HERE I AM! THE JOY OF BABIES

Tiny babies start life curious! The beurer BabyCare collection is a carefully tailored range of products that meets all your baby's needs and offers practical support for new parents during those exciting early years with their new arrival. The range covers all the important areas, from nutrition to health and care. We support the healthy development of your child and give you the security of knowing you are always doing the best for your little one.

ONLY THE BEST FOR LITTLE BABIES – A WELL-ROUNDED RANGE

The beurer BabyCare collection offers products that give optimum support for everyday life as a family. This includes manual and electric breast pumps, baby food and bottle warmers, steam sterilisers, clinical thermometers, nasal aspirators and inhalers, as well as baby scales and baby monitors.

3 COMPONENTS FOR A HEALTHY START IN LIFE

HEALTH: PROTECTED AND CONTENT AS THEY GROW UP

We focus on the health of your child, so they can cheerfully discover the world while you fully experience the joy of a baby – without stress.

GIVING YOUR BABY AN ALL-ROUND FEELING OF WELL-BEING

From weight to body temperature, this coordinated range enables you to easily determine your child's vital signs and react quickly in the event of illness.

IH 58
Children's nebuliser
These children's nebulisers with compressed air technology provide rapid and effective assistance for illnesses of the upper and lower airways. The attachable jolly giraffe will help distract your child in a playful way.

Additional nebulisers for children and adults are available on our website: www.beurer.com

BY 90
Baby scale
The BY 90 baby scale enables optimum weight monitoring for your child. The data can be automatically transferred into the beurer BabyCare app via *Bluetooth*®.

NUTRITION: A HEALTHY APPETITE FROM THE START

Adventurers need to get big and strong! To support you and your baby from the outset, Beurer offers useful products to nourish your child, including manual and electric breast pumps, baby food bottle warmers, and steam sterilisers.

BY 15
Manual breast pump
The two pumping levels of the manual breast pump make it particularly gentle to use. It is easy to operate, making it practical for occasional use or journeys.

BY 40
Electric breast pump
Electric breast pumps are suitable for regular use. With a range of stimulation and pumping levels, they simulate the natural drinking process.

Additional electric breast pumps are available on our website at www.beurer.com

BY 11
Instant thermometer
The BY 11 instant thermometer enables you to immediately find out if your baby has a fever. It is available with a fun ape, frog, or dog motif.

NA 20
Nasal aspirator
The nasal aspirator makes it easier for babies and small children to breathe, eat and sleep. Gentle cleaning of the nasal cavity is helpful, particularly during cold and flu season.

BY 52
Baby food and bottle warmer
The baby food and bottle warmer is ideal for gently heating baby food and keeping it warm. The digital display means that it is easy to see the temperature.

BY 76
Steam steriliser
With the steam steriliser, baby's bottles will stay hygienically clean. The device eliminates all harmful household bacteria and works without chemical additives.
